Art Unit: 1315

1. Claims 5,6,16 and 17 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The meaning and scope of the terms "A4" and "letter size dimension" are not understood.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 and 12-17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Patterson. See column 2, lines 29-33 and 50-63.

4. Claims 1-8 and 12-17 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Long. See Figure 1 and column 3, lines 11-15.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 9,18,19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Long. Long discloses the invention substantially as claimed; see Figure 1 and column 3, lines

Art Unit: 1315

11-15. However, he does not disclose the claimed sizes of pattern and fold line spacing. It would have been obvious to one of ordinary skill in the art to vary the size of the patterns depending on the end use of the form.

7. Claims 10 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Thomas whose telephone number is (703) 308-2421.
